

IHC2014 Program – Friday 22 August 2014

Time/Room	GH	M1	M2	M3	M4	P1	P2	P3&4	P5	P6	P7	P8	P9	P10	P11	PA	BA	B1	B2	B3	S1	A2	Exhibition (posters)
0830-0915	Plenary 7: Koki Kanahama																						
0915-1000	Plenary 8: Martin Hamer																						
1000 -1030	Morning Tea											Morning Tea											
1030-1045	SYM15: Tropical & Sub-Tropical Ornamentals	SYM5: Evapotranspiration, Energy Exchange & Irrigation Management		SYM10: Tropical & Sub-tropical Grape & Wine Production	SYM19: Supply Chains	SYM39: Crop Production & Physiology	SYM37: Molecular Biology, Biotechnology & Germplasm Diversity	SYM22: Crop Management	SYM31: Life Cycle Management	SYM32: Biosecurity, Quarantine Pests & Market Access	SYM16: Precision Horticulture	SYM9: Role of Plant Hormones & Carbohydrates in Abscission	SYM13: Nutrition & Consumption	SYM27: Germplasm Conservation Strategies & Technologies	SYM40: Plant/Water/ Nutrient Management/ Stresses		SYM26: Micropropagation in Liquid Culture & Photoautotrophy	SYM2: Human Roles in Urban Agriculture/ Horticulture	SYM1: FAV & Cardiovascular Disease, Obesity & Diabetes		ISHS Executive & Council Meeting	Digital Posters: SYM8 SYM52 SYM23 SYM24 SYM12	
1045-1100																							
1100-1115																							
1115-1130																							
1130-1145																							
1145-1200																							
1200-1215																							
1215-1230																							
1230-1330	Lunch											Lunch											
1330-1345		SYM5: Plant Responses to Drought & Salinity	SYM52: Health & Orchard Management	SYM10: Genetic & Physiological Improvement of Grape Production	SYM19: Postharvest Pathology	SYM39: Postharvest Technologies	SYM37: Postharvest & Processing Technologies	SYM22: Water, Substrate & Disease Management	SYM31: Eco-Efficiency	SYM32: Biosecurity, Quarantine Pests & Market Access	SYM16: Mechanisation	SYM9: Regulation of Organ Shedding in Tree/Vine Crops	SYM13: Nutrition & Consumption	SYM27: Harnessing the Diversity of Crop Wild Relatives	SYM40: Crop Improvements & Omics Technologies		SYM26: Cryopreservation & In Vitro Conservation of Germplasm	SYM2: Landscape/ Garden Design Criteria & Effects on Special Populations	SYM1: Isolation & Characterisation of Bioactive Compounds			Digital Posters: SYM8 SYM23 SYM24 SYM12	
1345-1400																							
1400-1415																							
1415-1430																							
1430-1445																							
1445-1500																							
1500-1515																							
1515-1530																							
1530-1600	Afternoon Tea											Afternoon Tea											
1600-1615		SYM5: Irrigation Management & Water Quality Impacts	SYM52: Pest & Disease	SYM10: Improving & Assessing Grape & Wine Quality	SYM19: Postharvest Physiology	SYM39: Postharvest 2	SYM37: Economics, Marketing, Supply Chain & Others	SYM22: Plant-Greenhouse Interactions	SYM31: Footprints & Carbon	SYM32: Biosecurity, Quarantine Pests & Market Access	SYM16: Robotics	SYM9: Managing Fruit Abscission in Apple - A Case Study	SYM13: Roundtable Discussion	SYM27: Harnessing the Diversity of Crop Wild Relatives	SYM40: Postharvest Handling/Uses/ Commercialisation		SYM26: Micropropagation: Ornamental & Medicinal Plants	SYM2: Developing an International Definition of Horticultural Therapy	SYM1: Bioavailability & Bioaccessability of Bioactive Compounds II			Digital Posters: SYM23 SYM24	
1615-1630																							
1630-1645																							
1645-1700															SYM40: Others
